

Bay Area ENGINEERS

Serving the Biopharm Industry with Solutions. Service. Innovation

If you have challenges that require **fresh thinking** and the application of **serious expertise** grounded in years of solving difficult technical problems, combined with knowledge of cutting edge solutions, you need **Bay Area Engineers**.

We are a team of highly trained and successful professionals that have been working independently in the San Francisco Bay Area for many years. We have seen almost everything in biotech, pharmaceutical or environmental problem-solving and understand how to apply what we've learned.

We're here for you whenever you need us. Call us at **800.707.1465** today to learn more about what we can do to help you manage the technical challenges you face.
